## To Eligible Applicants

Dear Madam/Sir/CEO/Director,

### RE: Call for applications: Standards4Sustainability – People: Food Safety

Within the framework of the ISO Action Plan for developing countries 2021 to 2025, the ISO capacity building unit (ISO/CBU) launched a new project on “Standards4Sustainability: Supporting National Standards Bodies (NSBs) and their stakeholders in the uptake of selected ISO standards in support of the UN SDGs.”

The Standards4Sustainability roll-out supports the UN SDGs’ three critical dimensions: People-Planet-Prosperity. Following the results of the 2022 ISO/CBU needs assessment survey, under the “People” dimension, the food safety component of this initiative will focus on ISO 22000, Food Safety Management Systems and will be piloted in Eastern Africa. It will rely on a Training of Trainers (ToT) journey to build knowledge and skills on the requirements and benefits of food safety standards and supporting the selected pilot organization to benefit from the implementation of ISO 22000:2018. Therefore, UNBS is opening a call for applications to select;

1. **National Trainees** to participate in food safety training
